

Project Review: SC2002-02
CP Railway Bridge Replacement Wetland Permit Application

Project Location: MAP: 1
Robbinsdale
"South Beach Condo Wetland" directly south of Twin Lake
Type 3 and 4 wetland replacement, Adjacent upland buffer: South Beach Condo Wetland Replacement

Inlet (s):

Outlet(s):

Basin(s):

Inspection Date: August 24, 2005

Comments: Fence surrounds the wetland, so access to inlets and outlet was not feasible. Type 3/4 wetland mitigation planned, but currently appears to be Type 3.

Annual wetland mitigation monitoring reports should be submitted to LGU.
