### Raingardens and Beyond: Healthy Yards, Clean Water

You can help keep our lakes, rivers and streams clean by the simple changes you make in your yard care choices. This workshop explores the latest in healthy yard care practices, including proper use of fertilizers, disposal and reuse of yard waste, keeping sidewalks ice free and managing runoff onsite. This workshop is designed to move participants quickly from an overview of healthy yard care practices to a completed raingarden design for their property with one-on-one assistance from Metro Blooms landscape designers and Hennepin County Master Gardeners. Register now. Some locations fill up fast. The \$15 workshops will be offered from mid-April to mid-June:

| Date   | Day       | Time      | Location                                      |

Whether you are an experienced gardener or have never tried gardening before, these eco-friendly gardening workshops will help you learn how to:

- Capture rainwater on site with raingardens.
- Redirect our downspouts and install a rain barrel.
- Plan your own garden with one-on-one assistance from landscape designers and Hennepin County Master Gardeners.
- Use beautiful native plants in your garden landscape.
- Adopt healthy yard care practices for you and for our clean waters.
